

**Winkelman Natural Resource Conservation District
Land Management Plan**

Policy 2 – Customs and Culture

In accordance with its Long Range Plan, it is the goal and responsibility of the Winkelman Natural Resource Conservation District to “address socio-economic, rural and urban development issues”, to “foster the appreciation of cultural and wildlife resources” and to “protect the tax base and individual property rights” within the District.

It is the policy of the Winkelman District to protect the local customs and culture. District lands encompass areas with treasured historic and cultural significance, lands with essential mineral resources as well as long standing farms and ranches that support the local tax base and help protect open space.

The District opposes any action that would adversely affect those important district resources by promoting further land fragmentation, the possible destruction of valued cultural and historic resources, disturbance of soil and degradation of water quality as well as affect the ability of landowners to steward their properties and produce essential products for the benefit of the people of the District, the county, the State of Arizona and the United States.

Passed and adopted this 6 day of January 2010, by the following vote.
